

Flash CS4 Professional: Advanced

2 days

Description

Along with the Basic course, this Advanced ILT Series course is designed to help your students pass the Adobe Certified Expert (ACE) exam for Flash CS4 Professional. Students will create and edit vector paths and mask layers. Students will also learn advanced animation techniques, such as inverse kinematics, shape and motion tweens, and animated masks. Students will then learn some basic programming principles while using ActionScript 3.0 to get more control over their Flash applications. Finally, students will incorporate audio and video into their Flash documents.

Prerequisites

Flash CS4 Professional: Basic, ACE Edition, or equivalent experience

Course Outline

Unit 1: Vector illustration

Topic A: Creating vector paths

Topic B: Editing vector paths

Topic C: Using mask layers

Unit 2: Advanced animation techniques

Topic A: Inverse kinematics

Topic B: Shape tweens and animated masks

Topic C: Filter animation

Topic D: The Motion Editor

Unit 3: ActionScript animation

Topic A: Programming principles

Topic B: Event listeners and event handlers

Topic C: Modular code

Topic D: Special classes

Topic E: The Debugger

Unit 4: Interactive techniques

Topic A: Adding audio

Topic B: Scripting a link to a Web page

Topic C: Loading dynamic content

Unit 5: Video

Topic A: Flash video basics

Topic B: Video in Flash files
