

CompTIA PDI+ Certification

2 days

Description

This ILT Series course will prepare students for the CompTIA PDI+ Certification exam, which validates the knowledge and skills necessary to support printing and document imaging devices including printers, copiers, scanners, multi-functional devices, and fax machines. This vendor-neutral certification recognizes a technician's understanding of basic electromechanical components and tools, print engine and scan processes and components, color theory, and connectivity/networking. It also covers business skills such as customer service, professionalism, safety, and environment. In addition, CompTIA PDI+ is relevant to seasoned technicians in the printing and document imaging industry interested in an industry-accepted credential that validates their knowledge and skills.
