

SharePoint Designer 2007: Advanced

2 days

Description

This ILT Series course teaches the core features and functions of SharePoint Designer 2007. Students will learn how to create and apply templates, control layout and spacing, create and apply style sheets, and apply IDs and classes. They will also insert, modify, and arrange images, create links and navigation bars, and insert and format tables. Finally, they will learn how to prepare a Web site for publishing.

Prerequisites

- *Windows XP: Basic or Windows Vista: Basic*
- *SharePoint Designer 2007: Basic*
- *Previous experience with Internet Explorer is recommended*
