## Dreamweaver Web Design

Indiana ETC #7722 • Ohio #111004 • Cost: \$1,500

*Adobe Dreamweaver (formally Macromedia Dreamweaver) is a design tool for developing standards-based web sites and applications. With this tool one can design, develop, and maintain web sites and applications — from start to finish.*

*Built for designers and developers, Dreamweaver offers the choice of a visual layout interface or a streamlined coding environment. Intelligent integration with related Adobe software ensures an efficient workflow across other favorite Adobe tools.*

*The rapid and widespread use of computers and information technology has generated a need for highly trained workers proficient in various job functions. In an increasingly competitive world, employees need to be more than just familiar users of digital communications technology to be successful.*

### Program Overview:

Graphic designers and artists with web design skills can increase their salaries by more than half, and will find more job opportunities in Indiana and nation-wide. Certification can help provide the needed credentials to keep and advance current employment, as well as open new possibilities.

This course validates entry-level skills needed to plan, design, build and maintain an effective web site. Upon successful completion of the certification exam, the participant will achieve Adobe Certified Associate (ACA) status.

### Prerequisites:

HS Diploma or GED and Computer Basics Course

### Classes:

- Introduction to Personal Computers
- Windows XP
- Keyboarding A-Z
- Microsoft Word
